DAYTIME (OPTICAL) IMAGES

This straightforward snapshot resembles a typical image, capturing Earth in a way that feels familiar and accessible to everyone. This product also incorporates a fourth, near-infrared band for comprehensive coverage at an affordable cost.

Image Resolution Category	Resolution	Bands	EXISTING IMAGE		NEW IMAGE		
			Price per sq. km.	Min. Scene Size	Price per sq. km.	Min. Scene Size	Priority Price per sq. km.
Ultra High Resolution	7.5-10cm	4	\$100	1 km ²	N/A	N/A	N/A
	11-15cm		\$35				
Super High Resolution	16-30cm	4	\$22.50	5 km ²	\$30	25 km ²	\$55/sqkm
Very High Resolution	31-50cm	4	\$8	5 km ²	\$12	25 km ²	\$24/sqkm
High Resolution	51-100cm	4	\$5	5 km ²	\$8	25 km ²	\$12/sqkm

SAR IMAGES

Unveil the unseen with our SAR technology. While it arrives in black and white, don't be fooled – it's a detail powerhouse. This monochrome marvel slices through clouds and haze, revealing a wealth of information that might be obscured in traditional imagery.

Image Resolution Category	Resolution	NEW AND ARCHIVE IMAGES*	
		Price per 25 sq. km. scene	Price per natural footprint (NFP) scene
Ultra High Resolution	<=30cm	\$3,250	\$3,750
Super High Resolution	31-40cm	\$1,750	\$2,650
Very High Resolution	41-50cm	\$950	\$1,900
High Resolution	51-100cm	\$675	\$1,500

* Multi-look imaging modes available for an additional fee

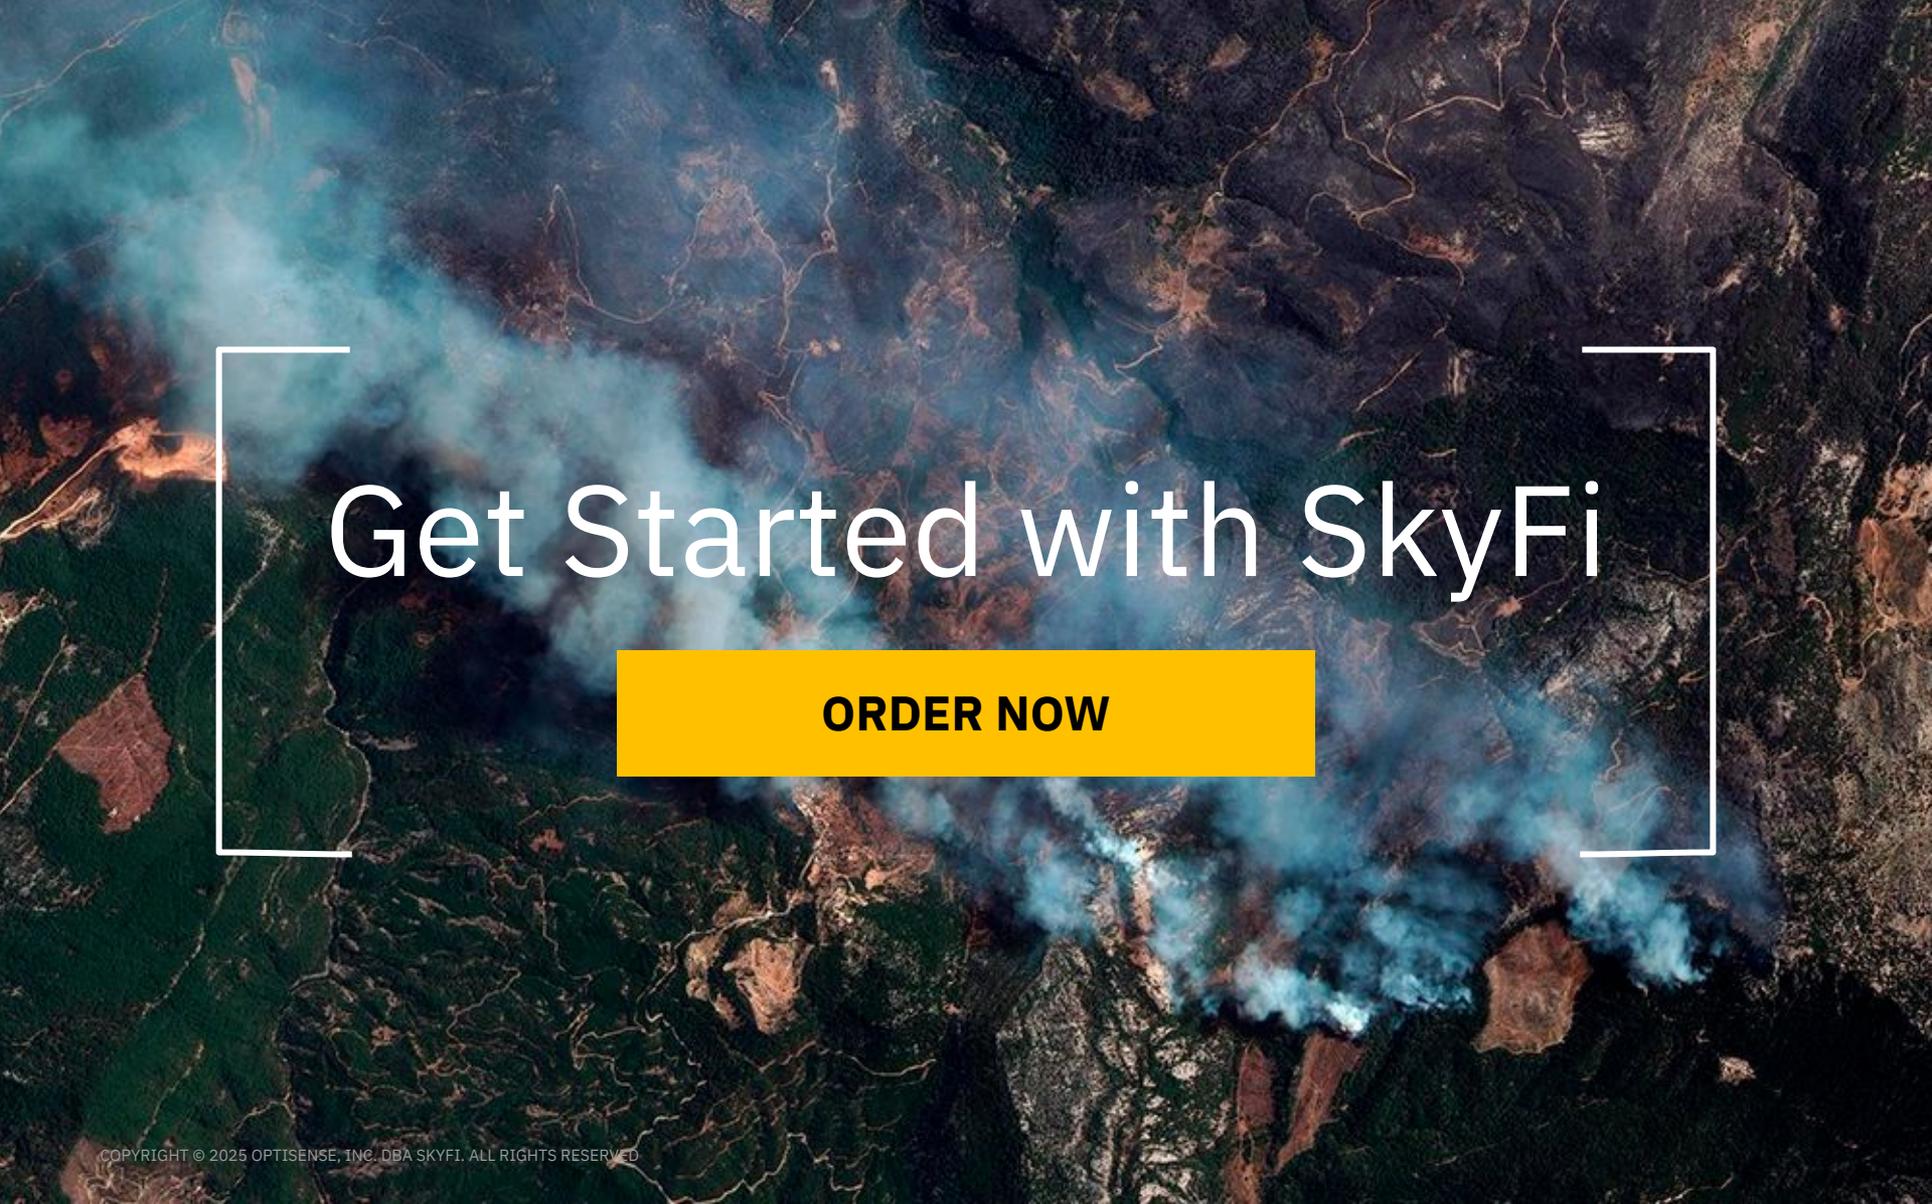

STEREO IMAGES

Heighten your understanding of the terrain with Stereo imagery. Derived from the same satellites as our Optical day product, these dual images enable you to extract elevations and heights, utilizing the parallax effect to enhance your insights into Earth's topography.

Image Resolution Category	Resolution	EXISTING IMAGE		NEW IMAGE		
		Price per sq. km.	Minimum Scene Size	Price per sq. km.	Minimum Scene Size	Priority Price per sq. km.
Super High Resolution	16-30cm	\$45	5 km ²	\$60	25 km ²	\$110/sqkm
Very High Resolution	31-50cm	\$16	5 km ²	\$24	25 km ²	\$48/sqkm

An aerial photograph of a volcanic landscape. The terrain is dark and rugged, with numerous fissures and ridges. Puffs of white and grey smoke or ash are rising from several points across the landscape, particularly in the upper left and lower right areas. The overall scene is dramatic and suggests a recent volcanic eruption.
